

Reflection questions:

- What do you think Lent is all about? In the past, how have you 'celebrated' Lent? What has been most helpful for you?
- Paul talks about continuing to work out our own salvation with fear and trembling for God is at work in us (Philippians 2:12, 13). How do you think this works – what is God doing and what is our part?
- What do you think is the advantage (if you think there is one) of virtue ethics – producing virtuous/Christ-like people - over rule-based ethics?
- Do you think it is possible to train people to be virtuous?
